

Map showing the planned road improvement project for National Route 409 and National Route 128 in the Maehara area. The map includes the following details:

- Project Area:** Indicated by a red line, spanning from Maehara Nanchi to Maehara Ichibu.
- Key Infrastructure:**
 - Maehara Nanchi IC (茂原長南IC)
 - Maehara Ichibu IC (茂原市台田)
 - Maehara Ring Road (茂原環状線)
 - Various bridges: Kikuchi Bridge (鶴枝橋), Tsurugibashi Bridge (鶴生橋), Maehara Bridge (馬橋), etc.
- Water Features:** Maehara River (茂原川), Tsurugigawa (鶴生川), and several water level observation points (e.g., 第一調節池, 寺崎水位観測所).
- Project Segments and Distances:**
 - 1st Section (1工区): L=0.7km, H25.4 opening.
 - 2nd Section (2工区): L=4.0km.
 - 3rd Section (3工区): L=2.5km.
 - General National Route 409 Maehara Ichibu Road (一般国道409号 茂原一宮道路): L=7.2km.
 - General National Route 128 Maehara Ichibu Road 2nd Phase (一般国道128号 茂原一宮道路二期): L=5.0km.
- Surrounding Areas:** Maehara City (茂原市), Maehara Nanchi (長南町), and Maehara Ichibu (一宮町).
- Inset Map:** Shows the location of the project area within the Maehara region.

【盛土区間】

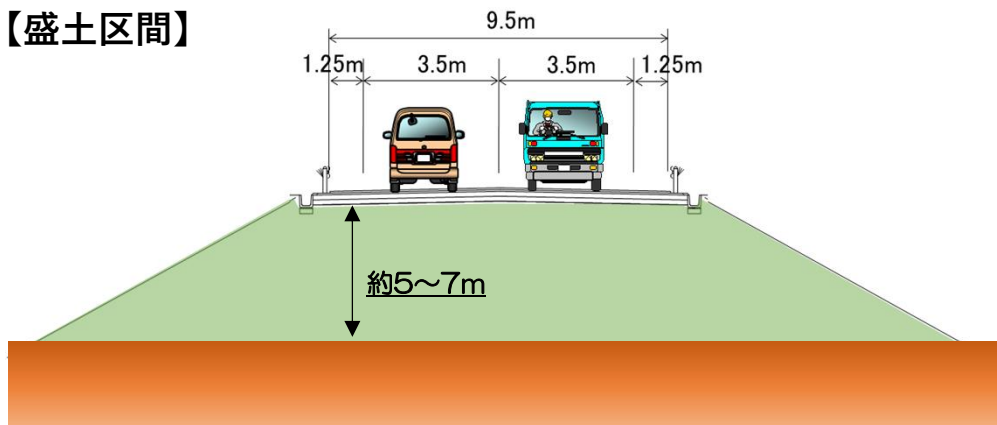

Diagram illustrating the layout of a vehicle inspection lane. The lane is 9.5m wide. The distance from the centerline to the left boundary is 1.25m. The distance between the two vehicles is 3.5m. The distance from the centerline to the right boundary is 1.25m. The distance from the left vehicle to the right boundary is 3.5m. The distance from the right vehicle to the left boundary is 3.5m.

- 道路規格：第3種2級
- 設計速度：60 km/h
- 車線数：2車線
