Prefectural Awa High School

385 Yawata, Tateyama City
http://cms2.chiba-c.ed.jp/awakou/

Characteristics of the School

This is a full-time general education high school. It began as Chiba Prefectural Awa Junior High School in 1901, and merged with Awa-Minami High School—a girls school—in 2008. The number of graduates to date has exceeded fifty thousand. With the motto “Simple and sturdy/accomplished in literary achievements and martial arts,” the school aims to train inspired graduates who are healthy in both body and soul, and equipped with stable academic skills and sensitivity.

Examples of Exchange Programs

- Examples of Exchange Programs.
- Participation in classes (such as English, geography/history, science, home economics, and physical education).
- Exchange events (such as school introduction on a voluntary student basis and performances by the calligraphy club and brass band club).
- Tour of educational and research facilities in neighboring areas (Tateyama City).

Prefectural Kisarazu High School

4-1-1 Bunkyo, Kisarazu City
http://www.chiba-c.ed.jp/kisarazu-h/

Characteristics of the School

Established in 1900, this is a school with a long history. The school’s motto is “autonomous and independent/simple and studious.” It was designated as a super science high school in 2016, and will establish a math-science course in April 2017. The school also puts on various school events, such as a culture festival and a sports festival. Many students participate in club activities, and the school is accomplishing its ideal of bun-bu ryoudou (accomplished in both literary achievements and sports).

Examples of Exchange Programs

- Participation in English expression classes.
- Multicultural exchange through presentations introducing the cultures of various countries.
**Prefectural Kimitsu High School**

454 Sakada, Kimitsu City  
http://cms2.chiba-c.ed.jp/kimitsu-h/

**Characteristics of the School**

This is a full-time general education high school established in 1971. With seven homerooms per class/year, there are a total of twenty-one college-prep homerooms. Aiming for education that provides “high intelligence,” “rich sentiment,” and “sound bodies and minds and willpower to students,” the school offers instruction and career planning to suit each student from the second year on, having the students select an elective course from humanities, math and science, or English.

**Examples of Exchange Programs**

- Class participation (such as art, physical education, and English).
- Club activity exchange (sports and humanities clubs).

---

**Prefectural Kimitsu Aoba High School**

48 Aoyagi, Kimitsu City  
http://cms2.chiba-c.ed.jp/kimitsuaoba-h/

**Characteristics of the School**

Located in the rich natural scenery of central Chiba Prefecture, this is a comprehensive high school with four homerooms in each class/year. The students are divided into seven fields from the second year on—agriculture, foods, environment, commerce, civil engineering, home economics and welfare, and general—and work on learning in their selected fields.

**Examples of Exchange Programs**

- Class participation in classes (such as hands-on work in agriculture, foods, environment, commerce, civil engineering, and home economics and welfare).
- Club activity exchange (such as ping-pong and volleyball).
4 Ichihara Chuo High School

1481-1 Tsuchiu, Ichihara City
http://www.kimigaku.ed.jp/ich/

Characteristics of the School

This general education school offers "high-level challenge" courses as well as courses in art and the English language. Ichihara Chuo is a member school of the UNESCO Associated Schools Project Network. Both the sports and humanities club activities are very popular here. The English-language course includes a three-night, four-day Asia English excursion during the first year, and a two-week language excursion in Australia in the second year. The culture festival in June and the sports festival in October are open to the public and draw many spectators.

Examples of Exchange Programs

- Class participation (in English classes as well as other subjects).
- Participation in project learning (developing a presentation with English-language course students and experiencing Japanese culture).
- Participation in club activities (sports and humanities club activities).

5 Bunri Kaisei High School

815 Yokosuka, Kamogawa City
http://www.bunri-kaisei.ed.jp/

Characteristics of the School

The school offers various opportunities for students to have direct experiences, think for themselves and take action on their own, and classes that follow an active-learning format. The idea is to bring up graduates who will be active and productive members of society. The school creates an environment that prepares students for a global society through lively exchange programs with Josai International University’s foreign students from Poland and Hungary and studying with Chinese international students.

Examples of Exchange Programs

- Class participation (such as English, physical education, and tea ceremony).
- It is possible to create a program, not only for academic learning, but as a part of comprehensive learning.
Prefectural Ichihara School for Special Needs Education Tsurumai Kaze-no-oka Annex

1159-1 Tsurumai, Ichihara City
http://www.t-kazenooka.ed.jp/

Characteristics of the School

Established in 2009, this is a high school for special needs education focusing on occupational development. For those with intellectual disabilities, it offers courses in specialized practices such as in agriculture/gardening, cleaning, and office services, as well as academic courses emphasizing basic education. The school conducts exchange programs with the local community. These various educational activities are meant to ensure that students enjoy occupational independence.

Examples of Exchange Programs

- Club activity exchange (softball, soccer, basketball, dancing, music, photography, illustrations, crafts, and making simple snacks).
- Class participation (experiencing agriculture/gardening and cleaning buildings).
